

ROLE PLAYER INSTRUCTIONS

Driver

You are a cooperative citizen with no arrest record and no 4th waiver. Use your own license and the registration from the vehicle being used. You are unaware that someone stole your license plate and put a different one on your car. You are not comfortable with a search of your car. Make up any other information if the deputies ask other questions.

You will position your car in front of classroom B as if you were going to exit the main entrance. A patrol car should be positioned behind you.

To start the scenario, start driving toward the exit. The deputies should activate their lights to initiate a stop. Turn south (right) onto the dirt road and then yield. Do NOT stop on the paved driveway.

At the conclusion of the scenario, immediately reset to begin another scenario.
